About Us.....

At Tisser, our mission is to harness the power of handmade crafts to generate livelihoods sustainably. We aim to empower artisan clusters to create sustainable producer enterprises, strengthen the handmade value chain through innovation, and support the craft sector with transformative business models. Our vision is to celebrate handmade products, empower creators, and connect consumers for the sustainable growth of the sector. Our core values include putting people first, maintaining high quality, and being environmentally conscious.

Tisser aims to empower artisans across India by celebrating handmade crafts and fostering sustainable livelihoods. By supporting over 10,000 artisans through innovative business models and market linkages, Tisser enhances economic independence for women and preserves India's rich cultural heritage. Our mission focuses on creating sustainable producer enterprises and strengthening the handmade value chain through innovation and consumer connection.

Jute Crafts

Jute craft, is a form of traditional craft that utilizes jute fibres to create various decorative and functional items. Jute, a natural fibre derived from the barks of Jute plant, is known for its durability and eco-friendliness. Jute craft encompasses a wide range of products, including bags, baskets, wall hangings, coasters, rugs, and more. The appeal of jute craft lies in its rustic charm, organic texture, and sustainable nature. Jute's golden hue and ability to absorb dyes makes it versatile for creating vibrant designs and patterns. Jute craft items find applications in home decor, fashion accessories, and even corporate gifting. They add a touch of earthiness and uniqueness to living spaces.

Natural Dyeing

We are specialized in natural dyeing with dyes derived from plants or minerals, majority of them are from plant sources like roots, bark, leaves, wood, seeds, flowers, fruits etc .

The ancient process of Natural dyeing reminds us that it has been practiced for more than 5,000 years. The common fibers that we use at "Aame" constitute mainly jute, areca sheaths and maize sheaths. The essential process of dyeing requires soaking and boiling the dyestuff in water, further boiling the jute/ areca sheaths/maize sheaths in the dyed solution, until the required shade is attained. Further it is washed to remove the extra colour and dried thoroughly before using it, to produce the required jute product.

Natural Dyes on Jute Fibre

Colors on this shade card are for reference only.
Actual colors may vary slightly due to monitor settings,
lighting, and printing processes.

Tea Coasters

Enjoy your tea time like never before with our exquisite collection of Jute Tea Coasters, thoughtfully designed to add a touch of elegance and eco-friendliness to your tea time experience. Crafted in a variety of delightful models, including charming animals, vibrant fruits, wholesome vegetables, and timeless classic shapes, these coasters are the perfect blend of functionality and aesthetic appeal, available in a wide range of captivating colors. Each coaster is meticulously crafted with attention to detail, ensuring that you receive a product of exceptional quality that will stand the test of time.
